

RJC Engineers appoints new associates and principals

January 15, 2025
By Peter Saunders

Read Jones Christoffersen ([RJC](#)) Engineers has appointed four new associates and three new principals to its leadership team, for a total of 55 principals and 55 associates, as the firm enters its 77th year of business.

The appointees span various business segments, from structural engineering, building science and restoration to sustainability, project leadership and technical innovation.

The new associates (pictured, top row, left to right):

- [Craig Dunham](#), P.Eng., structural engineering, Toronto.
- [Garrett Perkins](#), P.Eng., building science and restoration, Kingston, Ont.
- [Nensi Baboci](#), P.Eng., Leadership in Energy and Environmental Design (LEED), building science and restoration, Toronto.
- [Peter Dias](#), P.Eng., building Science and restoration, Victoria.

The new principals (bottom row, left to right) are:

- [Matthew Lipiec](#), P.Eng., LEED and structural engineering, Toronto.
- [Jason Guldin](#), building science and restoration, Victoria.
- [Sameer Hasham](#), P.Eng., Passive House design, building science and restoration, Victoria.

(Hasham, incidentally, was among *Canadian Consulting Engineer's* Top 10 Under 40 Award winners in 2024; read about him [here](#).)
